

# CS306 Project

Name: Akif

Surname: Işıtan

ID: 29354

Project Name: Hang7e

Project Description:

- A basic graphical user interface application that people can log into or create an account with their credentials to play different minigames and share their high scores in the leaderboard. The planned minigames as of now are Hangman, Word7e (Wordle but with 7 letters), “Rock-Paper-Scissors”, “Guess the number” and “Slots”. These are subject to change.

The stored data will be:

- Accounts (username, password)
- Games (name, leaderboard)
- Leaderboards (player, position)
- Players (Account, Age)
